## PROFESSIONAL SUMMARY

Full-stack developer & technical operations professional with hands-on experience in Python (Django), Angular/TypeScript, SQL, and Power BI. I build backend APIs, dashboards and tools that improve operational visibility and reliability. Seeking software / data roles (contract or permanent) where I can contribute to product development, debugging, and automation.

## TECHNICAL SKILLS

Power BI · JavaScript/TypeScript · SQL · Data Analysis · Technical Operations · Python · Django · Angular · Git · Excel · Linux (basic) · REST APIs

## PROFESSIONAL EXPERIENCE

**AML Oceanographic Ltd** - Victoria, Canada

**Quality Control Technician & BI Support Analyst**

**Apr 2026 - Present**

- Lead calibration, validation, and quality assurance of high-precision oceanographic instruments across production and pre-shipment stages, maintaining compliance and customer delivery standards.
- Develop and maintain Power BI dashboards for operational reporting — cleared a 3-year backlog item, saving ~2–3 hours per week in manual reporting time.
- Write and maintain Epicor ERP BAQ queries supporting fulfillment, business operations, and cross-departmental data visibility; BI scope formally documented in employment letter.
- Serve as primary operational knowledge holder for end-to-end fulfillment processes during organizational transition; responsible for knowledge transfer and process documentation.
- Bridge quality operations and BI functions, identifying data inconsistencies and process gaps across fulfillment, QC, and reporting workflows.

**AML Oceanographic Ltd** - Victoria, Canada

**Fulfillment Technician & BI Support Analyst**

**Jun 2025 - Apr 2026**

- Perform calibration, validation, and final QA of high-precision oceanographic instruments prior to shipment, reducing customer risk and supporting compliance.
- Build and maintain Power BI dashboards and reports used by fulfillment and operations teams to monitor inventory accuracy and shipment readiness.
- Create and optimize Epicor BAQs for operational metrics, enabling faster inventory reconciliation and reporting.
- Troubleshoot technical faults and collaborate across quality, fulfillment, and engineering to resolve defects and improve handoff processes.
- Serve as Co-Chair, Joint Health & Safety Committee, participating in safety reviews and ensuring compliance with BC health & safety regulations.

**AML Oceanographic Ltd** - Victoria, Canada

**Supply Chain Clerk**

**Oct 2024 - Jun 2025**

- Processed NC/DMR and stock requests; performed inventory counts and reconciliations to support operational accuracy and audit traceability.

**Walmart**

**OMNI Customer Fulfillment Associate**

**Apr 2023 - Sept 2024**

- Consistently met daily fulfillment service-level targets in a high-volume OMNI environment and trained new associates on OMNI fulfillment workflows and order processing procedures.

**BankArg** - University Project

**ISPC - Scrum Master & Full-Stack Developer**

**Jul 2022 - Dec 2023**

- Built front-end features with Angular (TypeScript, HTML, CSS) and back-end endpoints with Django (Python); integrated APIs for core functionality.
- Acted as Scrum Master coordinating a cross-functional team of 8-10 members for sprint planning, task prioritization, and delivery.
- Led adaptation for mobile platforms via Android Studio to expand access.

## **Property Advisor & Architecture**

### **Web Developer Internship**

**Mar 2022 - Jul 2022**

- > Developed and customized website pages using WordPress, Elementor, HTML, CSS, and JavaScript.
- > Implemented backend functionality using Python (Django) and integrated React-based components.
- > Collaborated with designers and stakeholders to translate client requirements into responsive web pages.
- > Assisted onboarding and guidance of new interns on development workflows and coding practices.

## **Cordoba Hosting**

### **Web Developer - Volunteer Internship**

**Mar 2021 - Jul 2021**

- > Customized and deployed WordPress websites using HTML, PHP, and theme templates.
- > Built and modified website pages based on client specifications and project requirements.
- > Worked directly with clients to understand business needs and implement functional website solutions.
- > Participated in team discussions and contributed improvements to ongoing web development projects.

---

## **EDUCATION**

### **Advanced Technical Degree | Web Development & Digital Applications**

Polytechnic Higher Institute of Cordoba

**Mar 2022 - Jun 2024**

### **Oracle Next Education - ONE (420+ Hours)**

Alura - Oracle

**Aug 2022 - Apr 2023**

### **Artificial Intelligence Multidisciplinary Training Program (600+ Hours)**

University of Buenos Aires (UBA)

**Apr 2022 - Incomplete**

**.Net 6.0** (80+ Hours) - (Mina Clavero Technological Hub)

**Apr 2022 - Feb 2023**

**Argentina Programa** (<https://argentinaprograma.com>)

**Mar 2022 - Jan 2023**

### **Diploma in Programming** (Two year Program)

National Technological University - Argentina

1 Year completed: Argentinian Score, Average 8.73 over 10 - GPA 3.87 over 4

Abandoned because I moved to Canada.

**Mar 2021 - Dec 2021**
